WINTER WHEAT GROWS  
TOO RANK IN PLACES

Despite This, Reports Show Very  
Promising Condition for the Plant  
at the End of November.

Washington, Dec. 3.—The weather bureau has issued the following statement of crop conditions for November:  
"The month was marked by exceptionally mild temperatures in all districts east of the Rocky mountains, with excessively heavy rains on the North Pacific coast and from the lower Missouri valley to the west gulf coast, and more than the average amount over a part of the South Atlantic and each gulf states. Reports generally show that winter wheat was in very promising condition at the close of the month. With ample moisture and exceptionally mild temperatures throughout the month the crop made rapid advancement and too rank growth is very generally reported from the central valleys, Oklahoma and Texas. In the early south the Heslian fly has appeared extensively, but this pest has not affected the late sown, which constitutes much the greater part of the total acreage. In Texas some fields of the early sown are from twelve to eighteen inches high and are liable to injury from cold. On the North Pacific coast the weather has been very unfavorable for seeding."

MAJOR GLENN TO  
BE TRIED AGAIN

Has Faced Cruelty Charges Once  
Before, and Was Found  
Guilty.

(Special By Scripps-McLae.)  
Manila, Dec. 3.—Orders have been received from Washington directing that Major Glenn of the Fifth Infantry shall be put on trial a second time for alleged cruelty committed during the Samar campaign. Major Glenn is charged with having ordered the execution of several native guerrillas for misleading the American column sent against the enemy's stronghold. Major Glenn himself reported the incident, which has been the subject of an extensive inquiry for several months past. Major General Chaffee ordered two investigations to be made by Inspector General Colmore and Major Watts, who made inquiries. General Chaffee forwarded their reports to Secretary Root before he relinquished his command and without making any recommendation. Secretary Root now orders General Davis to formulate charges against Major Glenn and convene a court-martial.  
Major Glenn is now commanding a post at Bayambang, district of Pangasinan, Luzon, and he was today ordered to hold himself in readiness to appear here for trial. It is said the trial will reopen the entire question of the Samar campaign, and consume some time. It is expected that Major Glenn will inform the court that he desires Major General Chaffee and Brigadier General Jacob Smith to be called as witnesses, but it is possible that their depositions will be taken instead.

WOULD BAR ALL  
RELIGIOUS ORDERS

The French Premier Sends a List of  
Fifty-Four to the Cham-  
ber.

(Special By Scripps-McLae.)  
Paris, Dec. 3.—Premier Combes presented in the Chamber of Deputies today a list of fifty-four male religious orders which the government asks the Chamber not to authorize. His announcement was accomplished by a considerable disorder. As each order was named, the members of the Clerical Right Party chanted, amid laughter, "Pray for us." M. Lasies, anti-Semite, shouted: "You look, M. Combes, as though you were saying your litany." At M. Combes' request the subject was referred to a committee.  
The list of the unauthorized congregations submitted to the Chamber of Deputies includes the English Passionist Fathers. A number of Americans are among the English-speaking Catholics who attended the Passionist church of St. Joseph in the Avenue Hoche. The members of the order applied to Ambassador Porter and the British Ambassador, Sir Edmund J. Monson, to use their friendly influence to induce the government to permit the continuance of the institution, and many members of the congregation also solicited the good offices of the Ambassadors.  
The Ambassadors have not requested the government to make an exception in favor of the order, although a request to this effect may be presented to Minister Delcasse tomorrow. This representation, however, probably will be limited to an informal expression on behalf of the English and American residents, as the subject is one of delicacy, owing to the government's policy toward the religious orders.  
Premier Combes presented to the Senate today laws granting the necessary authorization under the law of association to the following orders: The White Fathers, African Missions of Lyon, the Claretians, the Trappists, and the Brothers of St. John of God.

Actions of the Strikers—  
Much Anxiety.  
(Special By Scripps-McLae.)  
Marseille, Dec. 3.—The only change in the strike situation has been for the worse, although no disturbance has yet occurred. Work at the docks has almost ceased, as the crews of the tugs have joined the strikers and the movements of foreign vessels is difficult.

The perfect has seen individually a number of shipowners, including the manager of the important Mediterranean line, the Messageries, with a view to arranging a conference between the owners and representatives of the strikers, but all the owners proved unyielding. Admiral Rouvier took similar steps with the same result.  
The strikers held two meetings today and resolved to inform the government that they would furnish crews for the steamers on condition that the vessels be used purely for the transportation of passengers and mail. The strikers also offered to man a vessel and take the delayed passengers to Algeria without asking any wages.

GERMAN WARSHIPS  
ARE AT CARACAS

Two Cruisers Suddenly Appear at  
La Guayra, Without Any  
Warning.

(Special By Scripps-McLae.)  
Caracas, Venezuela, Dec. 3.—Consternation was created here today by the sudden arrival at La Guayra, the port of Caracas, of German cruisers Vineta and Falke. The officials here had been under the impression that the secret commission sent by President Castro to London and Berlin had succeeded in settling the question of the German and British claims, or at least in delaying the joint action of the British and German governments. The officials of the government are indignant that the Kaiser's government should have sent his vessels here despite the fact that negotiations for an amicable adjustment of the trouble between the two countries were pending. A week ago, when it was announced that the British and German governments were preparing to take decisive steps to compel the Venezuelan government to settle their respective claims, it was expected that the warships of the powers would soon appear at La Guayra. But after the announcement from Berlin that President Castro had virtually yielded to the demands of the powers the impression prevailed that the plan to use stern measures had been abandoned, or at least delayed.  
While the officials here preserve silence, it is evident that the sudden turn affairs have taken is troubling them. The further action of the German warships is awaited with anxiety.

Pertaining to Health.

ternational Sanitary Conference of the  
American Republics is in session here.  
The governments of Mexico, Cuba,

sented by the delegates. The confer-  
ence is the outgrowth of the interna-

without a shot."

## ACADEMY STREET IN BAD SHAPE

Janesville Street Railway Leave It in Almost Impassable Condition Near Wall Street.

The Janesville Street Railway company has left Academy street between Wall streets and the Northwestern tracks in very bad shape and it is a wonder that some serious accident has not already occurred at this point.

The car tracks from Wall street to the Northwestern tracks have been raised about eight inches above the street level and left that way without any filling of any kind being put between the rails or about the ties.

It is almost impossible for anyone to drive across the tracks as they have a switch track at this point and occupy the most of the street. It is also at a place where there is a vast amount of travel to the Northwestern station and unless a person is on the west side of the track after passing Wall street it is almost impossible to cross the street to get to the Northwestern tracks. People living in the First ward and others having business at the railroad stations are anxious to have the fault remedied.

According to a statement made by a member of the highway committee the city is the one at fault in regard to the condition of Academy street. The car tracks were raised under the supervision of the city engineer to do away with the mud hole that was caused by the water settling at that point in rainy weather.

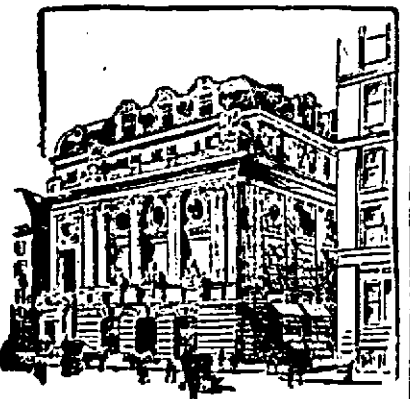

It was the intention of the highway committee to have the street leveled up with crushed stone, but so far there has been such a demand for stone by the street contractors, that the city have not been able to get the stone to repair the street, which will be done as soon as possible. The travelling public will be more than repaid for the inconvenience they now are put to when the street is repaired.

## FREIGHT WRECKED NEAR SHOPIERE

Caboose and Two Cars Off the Track Delays Passenger Trains Several Hours.

On account of a freight wreck at Shopiere last night the evening trains on the Northwestern from the south were several hours late and some of the trains going south were held here several hours.

The Barrington freight in charge of Engineer Al Shekey and Conductor McDonald jumped the track about a mile south of Shopiere and several cars were across the track in such shape that it took several hours to get the track clear.

The trains from Chicago due here at 8:05, 9:15 and the two later trains were all sent around by the way of Afton and Beloit and were several hours late. The Badger State Express due to leave for Chicago at 7:05 was held here until nearly twelve o'clock.

The wet snow and sleet interfered considerably with the working of the telegraph lines and made it dangerous to send trains over other divisions.

## FIRE DEPARTMENT HAS A LONG RUN

Called to Rock River Woolen Mills Last Night—Burning Barn the Cause.

A barn belonging to the Rock River Woolen Mill was destroyed by fire last evening. Shortly before eight o'clock an alarm was sent in from box 63 located at the mill and the department started out on a long run through the snow and mud. They made the trip in quick time considering the weather and found one end of the barn burning fiercely. A lead of hose was laid from the hydrant near the mill and the fire was soon under control.

Loss Light. The building was a story and a half frame affair so the loss will not be very heavy. There was a considerable quantity of baled hay and straw in the barn which made good fuel for the flames.

The fire was discovered by the watchman who was wheeling ashes from the mill engine room a short distance away. The mill horse and harness were in the building, but were removed in safety. The building is supposed to have caught from a spark from a passing train on the Janesville and Southeastern division of the St. Paul road which runs close to the barn.

"Why are you crying, my little lad?" he asked.

"Boohoo!" said the boy. "Billy Wells hit me, an' father hit me because I let Billy hit me, an' Billy Wells hit me again because I told father, an' now father 'll hit me again because Billy Wells hit me the second time."

If the coin retains its natural color during the boiling process, the fish is good to eat, but if it turns dark the food is rejected.

## HOW I CAME TO TAKE UP CHURCH WORK

(Original.) Just as the benediction was pronounced down came the rain. The weather had been so fine that few people had brought umbrellas. A girl stood near me in a brand new hat and suit looking at the sky dolefully. At the moment I noticed in a rack beside the door an umbrella. I seized it and offered it to her.

"Can't we share it?" she asked. I opened the umbrella, she gathered up her skirts, and we walked forth. "Why, Mr. Sturgis," she said suddenly, "I thought you were off on your vacation!"

"How did you know my name is Sturgis?" I asked, taken aback. "Why, I think it is on the inside." I looked up and, sure enough, there was "Walter V. Sturgis" painted in the placard of white letters. Walter Sturgis was assistant rector of the church we had attended. I was anything but a clergyman. I lived at a club and at the time was accounted a trifle gay.

"And my umbrella has the honor to shield?"

"A guest of the Van Winkles. I have heard a great deal about you from Alice Van Winkle. They attend your church, you know. This morning Alice was indisposed, and I was obliged to go alone. How is it that you are not officiating today?"

"I'm—er—well, you see, I'm supposed to be on vacation."

"But your dress is not clerical."

"My dress? I—why, I don't wear clericals when on vacation."

"That is singular."

"How far do you go?"

"Only around the corner."

Around the corner was pretty near for me, who, if seen by the Van Winkles, would be in an awkward position.

"Pardon me," I said, looking at my watch. "I had forgotten an engagement—a bit of parochial work. Take my umbrella. I must leave you." And despite her protestations I thrust it into her hand and took my departure.

In a few minutes I was in my club endeavoring to compose my somewhat unsettled feelings with a tumbler of amber liquid.

"I don't see what harm can come of it," I solaced myself. "If I hadn't done it, the girl's clothes would have been ruined." Nevertheless it occurred to me that trouble might come.

One evening I attended a ball at the Academy. The men were bachelors, and the women, while respectable, were not "in the swim." In one of the boxes were some society people looking on, and as I walked by, with my hat on the back of my head and a cigar in my mouth, I looked up and saw—the girl of the umbrella. Fortunately at the moment she was not looking my way, and I turned my back in time to prevent catching her eye. Later I recognized the box from a distance and saw that she was not with the Van Winkles, but with the Grosvenors.

"That's lucky," I said to myself. "The Grosvenors don't know either me or the curate; the Van Winkles know us both. However, I doubt if the girl saw me."

This all happened in June. In July I went abroad and did not return till the following November. Sauntering into my club the day after my arrival, I took up a paper. The first item that caught my eye was this:

The trial of the Rev. Walter V. Sturgis for conduct unbecoming the cloth will take place this morning in the vestry room of St. Mark's church.

"Great Scott!" I cried, springing up. "I'm at the bottom of this!"

Hastily pulling out my watch, I saw that it was 12 o'clock.

"Walter! A cab! Be quick!" In ten minutes I drove up to St. Mark's church and, making my way back to the vestry, entered. There sat a grim array of churchmen and laymen, the Rev. Walter V. Sturgis among them, the picture of despair.

"Gentlemen," I said, "will you please tell me what's up? Perhaps I can throw some light on this case."

The rector looked at me over his spectacles and frowned.

"Our young brother, Mr. Sturgis," he said, "has been accused of returning to town from his vacation without making himself known; also attending a ball of questionable character. The principal witness is unfortunately ill and cannot testify, but—"

I walked up to the Rev. Mr. Sturgis and grasped his hand. "I have a confession to make," I said. "I've evidently been raising merry thunder without knowing it." Then, turning to the others, I told the story of the umbrella.

"And now," I added, "Mr. Sturgis, before I leave I want your forgiveness."

"It is granted on one condition."

"Name it."

"Attend this church regularly hereafter and give me an hour a day for charity work."

"That's a pretty steep penalty."

"It was a pretty steep offense."

"Right you are. I'll go you."

One morning a few months later I was emerging from the vestry with a sack of provisions on my shoulder when I heard a merry laugh. Looking through the iron fencing between the church and the sidewalk, there stood—the umbrella girl.

"Good morning, Mr. Sturgis," she said. "Where shall I return your umbrella?"

"Oh, give it to the curate," I said. "He's usually hard up, living as he does on a pittance. I don't need it myself."

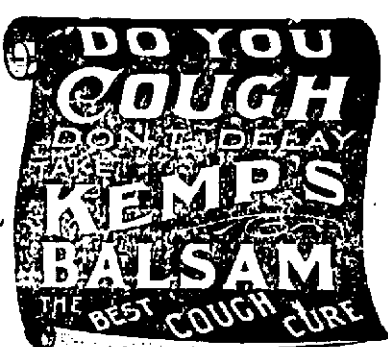

I am now a confirmed churchman and a confirmed married man, my wife being the girl I sheltered under the Rev. Mr. Sturgis' umbrella.

**CONDITIONS IN THE PHILIPPINES**  
The report of the secretary of war just issued, contains some facts concerning conditions in the Philippine islands, that are startling. Mr. Root says:

"The rinderpest has destroyed about 90 per cent. of all their carabos, leaving them without draft animals to till their land and aid in the ordinary work of farm life. Carabos have increased in price from \$20 to \$200 Mexican. The eastern disease known as 'surra' has killed and is killing the native and American horses, further crippling transportation. The rice crop has been reduced to 25 per cent. of the ordinary crop. Last year in Luzon a plague of locusts has come upon the land, destroying much of the remaining 25 per cent. of the rice crop. A drought in China and a fall in the price of silver have raised the price of rice from \$4 to \$7 a picul. The commission has been obliged to go out of the islands and use insular funds to buy over 40,000,000 pounds of rice to save the people from perishing by famine. Cholera has raged and is raging throughout the islands. The ignorance of the people and their unwillingness to submit to sanitary regulations have made it almost impossible to check the ravages of the disease, which, it is estimated, will claim not less than 100,000 victims. The decline in the price of silver has carried Mexican dollars down from a ratio of two to one in gold to a ratio of over two and one half to one, and this has borne heavily on the commercial interests and on the wage earners.

It will be seen by this statement that the natives are suffering from both pestilence and famine, and that the value of their money is so depleted that it represents but little in purchasing power. The 40,000,000 pounds of rice furnished by the American commission represents but a small part of the expenditures being made by the government, for their relief and betterment.

The fact is fully appreciated that the Philippines are American wards, forced upon the nation as a result of the most humane war of modern times. The trust imposed is a sacred trust and is so regarded. It is a long stride from serfdom to freedom, and while the pathway is bright with hope, it is also beset with discouragements.

The land as well as the people must be redeemed, and while processes are slow, the work goes steadily on and a new civilization has already dawned upon the benighted land.

The recommendation of Secretary Root concerning the gold standard as a basis of value to be adopted, is both wise and just, and the Congress will undoubtedly take favorable action at an early date.

## THE CANTEN.

Referring to the operation of section 38 of the act of February 2, 1901, which prohibits the sale of beer and light wines in post exchanges, I said in my last report that a great body of reports had been received which indicated that the effect of the law was unfortunate, but that I thought a sufficient time had not elapsed to give the law a fair trial, and that the observation and report of its working would be continued during the ensuing year.

A great number of additional reports have now been received, and they confirm the impression produced by the earlier reports. I am convinced that the general effect of prohibiting the use of beer and light wines within the limited area of the army post is to lead the enlisted men to go out of the post, to frequent vile resorts which cluster in the neighborhood, to drink bad whiskey to excess, and to associate intimately with abandoned men and more abandoned women; and that the operation of the law is to increase drunkenness, disease of the most loathsome kind, insubordination and desertion, and moral and physical degeneration.

These reports are ready to be sent to congress whenever that body desires to consider the subject.—Report Secretary of War.

Secretary Root is in position to know what he is talking about. His opinion is endorsed by many army officers and the men in the field. There is a small class of intemperate temperance workers who succeeded in having congress, against its better judgment, take action against the canteen, and abolish it. If congress is wise, it will undo the work and restore the canteen, as the Secretary of War recommends.

## PROSPERITY ECHOES.

The activity of the manufacturers of the United States, measured by the figures of imports of manufacturers' materials and exports of manufactured articles, is greater than ever before. Imports of manufacturers' materials in the ten months, ending with October, 1902, are, as shown by the figures of Treasury Bureau of Statistics, 365 million dollars, against 201 million dollars in the

corresponding months of 1896, 274 millions in the corresponding months of 1899, and 319 millions in the corresponding months of 1901. The imports of manufacturers' materials in ten months of 1902, therefore are 15 per cent. higher than those of 1901, the highest record heretofore, and more than 80 per cent. in excess of the figures for the corresponding months of 1896. On the other hand, exports of manufacturers are also larger than any of those of any ten months' receding period, with the single exception of 1900, showing an increase of 15 million dollars over the total for the ten months of 1901, and being actually more than double the figures for the corresponding months in 1896.

**JANSVILLE AND MADISON**  
The visit of seventy-five business men to Madison was an innovation and may be productive of good results. While there is no business rivalry between the two cities, it is well to cultivate a spirit of friendly and fraternal feeling.

All cities, belonging to this class, have many things in common, and the subject presented at the joint meeting of the two clubs was very practical, and afforded common ground for discussion.

The business men of Madison are good entertainers and this fact was so thoroughly impressed upon the Jansville men, that no effort will be spared to make the return visit pleasant and profitable.

The business men of every city, and of the country at large, need to touch elbows more closely. The contact is wholesome and helpful. The business man's forum is the broad field of observation, and he does himself an injustice when he confines his scope of vision to his own immediate surroundings.

The progressive business man is not the inhabitant of a shell, neither is he hide-bound. He discovers, early in his career, that other men have solved problems for his benefit, and he is not slow to adopt their methods, where they lead to success.

The Gazette extends greetings to the business men of Madison in behalf of Jansville's interests.

The Six O'clock club at Madison has one member who deals in fairy tales to such an extent that he must prove a source of constant discussion. He maintained that gas can be produced at 20 cents per thousand, and backed up the assertion that he found no trouble in buying goods for a state institution in Illinois for thirty per cent. less than the wholesale price. He is a financier of which any city has occasion to feel proud. The state of Illinois evidently made a mistake when they permitted him to escape from Kankakee.

In a batch of five emigrants moving toward the Canadian border there were a Scotchman, an Irishman, an Englishman and a Canadian. What sort of annexation sentiment are these men likely to produce in their new home in Canada?

## PRESS COMMENT

Madison Democrat: From the stalwart point of view, La Follette is the mad mullah of Wisconsin politics.

Marquette Eagle: Fortunately for the state, there is this little space of time between the election and the meeting of the legislature.

Milwaukee Free Press: We wish it distinctly understood that The Free Press has merely announced an unalterable determination not to accept the state printing.

Madison Democrat: Why this delay in making appointments in the capitol? If there be not enough new men, it might be suggested that if proper representation were made, the present incumbents might be induced to stay.

Milwaukee Wisconsin: Now that turkey has ceased to be the necessity it seems to be, temporarily, its price will again fall below that of pork—that is, bacon. The pig has been the only bird for some time that furnishes 20-cent goods.

Oconto Reporter: A Milwaukee paper says that while Dave Rose was hunting he mistook a brindle calf for a tawny deer and followed it several miles. It's poor consolation for Dave to think that this is not the first and only mistake.

Cambria News: The democratic party is like a rundown clock. It is absolutely right twice a day and absolutely wrong all the rest of the time. The republican party may never be absolutely right, but it is a good time-piece and follows the sun of progress.

Washington Times: The Washington hotels are full of staid old boomers from Oklahoma, Arizona and New Mexico, and every one of them expects to come back as a senator, or some thing like that after the territories have been admitted. No wonder they hustle.

Marion Advertiser: We have had our election. Now let us get to work and mend our fences, or the donkey and populists may combine again, break through and eat all our cabbage heads. It was a great "smudge" to "stallwaters" and our clothes are still drenched.

New London Press: The poor fishermen have to "go way back and sit down" nowadays with their story of a big catch as the hunters are returning home and explaining "how it happened." How much the deer weighed that got away and how much the one they got, cost.

New London Press: The state legislature is to be petitioned by the Outagamie county board to grant the Indians of the Onondia reservation unreserved township rights. This means, if the law is passed, that Indians will be required to pay taxes for the support of the township government.

Milwaukee News: With seventy-five "reformers" from Milwaukee clamoring for state jobs, it is suspected that there will be several of the clamorous that will lose their enthusiasm for higher railway taxation and primary election reform when it is discovered that there are not enough offices to go 'round.

Fond du Lac Commonwealth: The board has recommended that the children in the public schools be vaccinated and that recommendation has been communicated to the teachers, pupils and parents. The step is a wise one as every precaution ought to be taken to protect the city against a smallpox epidemic.

Madison Journal: Wisconsin breeds reformers. Indian Commissioner Jones in his forthcoming report to the secretary of the interior will recommend the extension of the civil service requirements to Indian agents. In order, says the commissioner, that politics may not retard the progress of the Indian toward civilization.

Benefit of Four Tracks  
Two Irishmen were in New York city bound for the West. They had several railroad time tables and were looking them over to select a route thither. They finally discovered that some lines had more tracks. Hence they took the four-track New York Central. But their decision was not based upon the fact but upon the fancy in the premises. Said Mulligan to Pat: "Pat, we'll be after takin' the four-tracker, for if she laps one track she lands on wavy line the others an' loses no time, but if it's a one or two-tracker she'd be left to slow up and put on the brakes an' lift her back on an' we'd be a day late."—Thistle.

## NEIGHBORS GIVE PICNIC PARTIES

UNIQUE ORGANIZATION TAKES PLACE OF CARD CLUB.

### SIX O'CLOCK PICNIC SUPPERS

Mr. and Mrs. E. Leavitt Entertained the Neighborly Club Last Evening.

One of the most unique social organizations of the city is the Neighborly Club which has been instituted this winter in a certain section of the First ward.

The membership includes several families in the vicinity of Madison and West Bluff streets and the picnics are held on alternate Tuesday evenings.

**Not A Club**  
The neighborly picnic is not a club, a fact which those interested in social life should know. The majority of the members are elderly people and several of them have a decided prejudice against the regulation card club. They would give the members the social pleasures of a club without the features which were objectionable to them. It has proved most delightful and successful and the fortnightly gatherings are looked forward to with eager anticipation.

**Winter Picnics**  
The meetings are genuine indoor picnics and informality is the chief characteristic. Picnic suppers are served at six o'clock, every person providing some one article of food and carrying his or her own dishes. After the supper there is never any set program of entertainment, but the picnickers select their own amusement and the result is always most satisfactory. No set rules and no prizes are features of the organization.

**Mr. and Mrs. Leavitt Entertain**  
Last evening the regular picnic was held at the home of Mr. and Mrs. E. Leavitt, 114 Madison street, and the usual jolly good time prevailed. Eighteen of the neighbors braved the storm and appetites seemed unusually keen as they gathered around the tables where the elegant picnic supper was spread. Picnic rules prevail even in the serving of the supper, everyone helps everyone else and the picnic spirit reigns supreme.

**At Card Tables**  
Last evening, after the supper, was devoted to cards but there were four different games going at the same time. Those who were in the mood for cribbage followed their inclination, perfectly independent of the fact that others were having just as good a time at whist or clinch. The hospital atmosphere of the Leavitt home added a special pleasure to the evening's enjoyment and it was a late hour when the goodnights were said.

### WHAT PEOPLE ARE DOING

**Marriage Licenses:** A marriage license was issued yesterday to Lewis B. Lockwood and Edith Hensel, both of Edgerton.

**Has Filling Contract:** P. W. Ryan has been awarded the contract for filling the approaches to the Galena street viaduct over the Northwestern tracks. He will put a force of men at work on the job at once.

**Putting in Batteries:** The batteries for the new fire alarm system are being installed today in the room formerly occupied by the street commissioner. The connections will be completed in a day or two.

**Jury Drawn:** In the municipal court today a jury was drawn in the case of the state of Wisconsin vs. Edward J. Davis. The jury was drawn from the body of the county. The case is set for trial on Thursday morning at ten o'clock.

**Bell in Place:** The bell for the new clock was raised into position in the city hall tower yesterday. The old clock has been taken down and the new clock is ready to be put in place. Mr. Buckley thinks that he will have everything completed by Saturday night.

**Masquerade at Assembly Hall:** The mask party given by the Painters, Paper Hangers and Decorators' Union at Assembly hall last evening, was attended by about fifty couples. A severe storm interfered with the party and kept many away who would have attended. Those present had a time dancing to the splendid music furnished by Baldwin & Rehfeld's orchestra.

**Mission Workers Meet:** Members of the Woman's Missionary society of the First M. E. church will hold their regular monthly meeting in the church parlors tomorrow afternoon. The subject for the meeting will be "Glad Tidings From Around the World," special attention being paid to Japan and Korea. After the meeting there will be a picnic supper, the ladies remaining in the church for the prayer meeting services in the evening.

**Court Notes:** On account of the death of the plaintiff the suit of David Van Wart of Evansville against Mary Wadsworth of Evansville and Eva Jones of this city was discontinued in Jesse Earle's court today. The suit was commenced some months ago, the action being for the recovery of a commission alleged to be due for the sale of land. In the same court adjournment for a further hearing of the case of James M. Finley against the Northwestern railway company was fixed for Dec. 13. The complainant wishes damages for three cattle killed by a train. It is alleged that the accident was caused by defective cattle guards which allowed access to the track.

**What They Say**  
The Janesville Daily Gazette under its present management is one of the best inland dailies in the state, and shows marked improvement all the time. We doubt if there is a town of its size in the country that produces its equal, measured from a newspaper standpoint. There ought to be no hesitancy on the part of Janesville people to appreciate so enterprising an exponent of a thrifty city.—Wisconsin Tobacco Reporter.

## NOTICE.

The Gazette is willing and pleased to publish all notices of legal or society meetings, but it has found it necessary to make the rule that all such notices must be written and left at the office before 11 o'clock of the day they are to be published. In the future no notices, except paid ones, will be received over the telephone.

James Van Lone of Beloit fell from the roof of a building yesterday afternoon and was instantly killed.

The physicians are of the opinion that a stroke of apoplexy was the cause of his death. The elevation from which he fell was so slight that that in itself would hardly have resulted instantly fatal.

Mr. Van Lone was fifty-one years of age.

Beginning with this morning the Park hotel bus line discontinued their free service which has formerly been maintained. The proprietor has come to the conclusion, as did the proprietor of the Grand hotel some time ago, that it is only a needless loss to maintain a free transfer system. It attracts no customer to the house, and Janesville has been almost alone in their free bus lines.

## ELEMENTS GO ON FIERCE RAMPAGE

HAVOC WROUGHT BY THE FIRST STORM OF WINTER.

### TELEGRAPH LINES ARE DOWN

But Business Is Picking Up as a Result of the Same Storm Which Did Damage.

All through the middle west a severe snow storm raged yesterday afternoon and evening. Along the lake shore from Chicago to Racine the fiercest gale raged which has taken place since '94. From Wyoming, Nebraska and Kansas to eastern Wisconsin snow fell heavily, and high winds prevailed in several districts.

Janesville was more fortunate than many places so far as the violence of the storm was concerned. But the night was disagreeable and sloppy, the footing of mud and melting snow keeping pedestrians from the street, and evoking a volley of the customary emphatic comments on the weather.

**Trains Delayed**  
On the railroads trains were behind time, and at Shoplex a train was derailed, holding up traffic for several hours. The Northwestern road was entirely deprived of its service to the south of the city, and was obliged to hold trains six and eight hours over regular time. On both lines the morning schedule was way behind time, almost every train arriving later than usual.

Nineteen of the Western Union telegraph poles between this city and Shoplex were down, and service in that direction was cut off. This district of the Postal Telegraph line was crippled in the direction of Madison.

**Telephone Poles Down**  
None of the telegraph companies were so hard hit as the American Telephone and Telegraph company. Between this city and Milton Junction the tall poles used by the company have been uprooted, and the wires lie on the ground a large part of the distance. The poles were not set deep enough for their height and the unusually heavy weight they have to bear. Becoming loaded down with the thickly falling snow the top-heavy poles were forced from the ground and now lie in a mass of wreckage.

Among the sufferers from the storm may be counted the union of Painters, Paperhangers and Decorators, who held a mask party last evening. Their numbers were sadly curtailed by the inclemency of the elements. The same result occurred in several of the other entertainments and social affairs. Fortunately comparatively few such events took place last night.

**More Is Coming**  
No cheering news has been sent out by the weather bureau. The Washington report predicts a cold wave overspreading the districts west of the Mississippi. In the lake region high northeast winds, followed tonight by colder and clearer weather.

Keeps in port, and telegrams have been frequent telling of ships in distress. Bad reports have come from the district of the Sea, and at both Chicago and Racine difficulty was encountered in bringing vessels safely to port.

**Merchants Pleased**  
But merchants are glad. The first heavy snow of the season is always followed by an influx of farmers to do their trading, and business in the stores has been brisker today than for some time past. A still further acceleration of trade is looked for, especially if more snow falls.

### REGULAR MEETING OF FIRE POLICE

Elect Three New Members to Fill Vacancies—Wagon Committee reported December 26.

The regular monthly meeting of the Janesville Fire Police was held last evening at the East Side Engine house. A number of matters were taken up for consideration and disposed of.

Mr. Dill, of Chicago, representing the Sterling Ambulance company was present and addressed the members in regard to an ambulance manufactured by his company and tried to interest the police in the purchase of one. No action was taken in the matter. A motion was made that when they adjourn it be until December 26, when the wagon committee would be ready to report on the purchase of a new wagon.

There being three vacancies in the force to be filled on account of the resignations of W. E. Evenson, R. J. Whitton and E. W. Putnam, a vote was taken to decide who should have the places, there being five applications. The applicants were William Farmer, Edwin L. Carpenter, H. J. McKinney, Edward P. Ayman and J. J. Cunningham. The vote resulted in the election of Farmer, Carpenter and McKinney to fill the vacancies.

The meeting was interrupted soon after it started by an alarm sent in from the Woolen Mills. Part of the force went with the wagon, the balance remaining at the meeting to continue the session.

Members of the Local Woman's Relief Corps Were Handsomely Entertained Yesterday.

Twenty-two members of W. H. Sargent Woman's Relief Corps No. 21, went to Edgerton yesterday and enjoyed the hospitality of H. P. Swift, Woman's Relief Corps No. 121, in response to an invitation tendered by the Edgerton Corps several days ago. The Janesville delegation left this city at 10:35 yesterday morning and returned home yesterday afternoon shortly after five o'clock.

**Entertained At Dinner**  
Upon their arrival in Edgerton the ladies were met at the depot by a committee from the Edgerton corps and escorted to Post hall. The hall was handsomely decorated with flags, one large silk banner attracting considerable attention. After an hour spent in social conversation, there was a grand march to the dining hall where an excellent dinner was served. Four long tables were spread, covers being laid for sixteen ladies. A delegation from the Evansville corps joined the party at dinner time, necessitating the laying of the fourth table. The Evansville party, which drove overland, was smaller than had been expected, owing to the storm.

Shortly after two o'clock the regular meeting of the Edgerton corps was held. Mrs. Lucy Dickinson presiding and all the officers in their chairs. Mrs. Ada P. Kimberley, department senior vice president, Mrs. Mary Dunwiddie, president of W. H. Sargent corps and Mrs. Lida Kelly, president of the Evansville corps, were escorted to seats on the platform and given the grand salute.

**Remarks By Visitors**  
After the work had been nicely performed, two new members being initiated. Mrs. Ash, of Edgerton, gave an excellent recitation for the good of the order. Several of the visiting members were then called on for remarks, those who responded from this city being Mrs. Ada P. Kimberley, Mrs. Mary Dunwiddie, Mrs. Mary L. Willis and Miss Ella L. Willis. All the ladies expressed very happily their appreciation of the hospitable manner in which they had been entertained. Mrs. Kimberley's address being especially interesting to all of the corps members present.

**More Refreshments**  
After the exemplification of a delicious cake was passed and there was a brief social session, sunshine and good cheer reigning within, although a blinding snow storm raged without. Shortly before train time the Janesville ladies were escorted to the depot by the Edgerton reception committee.

### DAUGHTERS HELD PLEASANT MEETING

Old Time Customs Happily Discussed by the D. A. R. at Mrs. Lovejoy's Home.

Members of the Janesville chapter of the Daughters of the American Revolution enjoyed an unusually pleasant meeting at the home of Mrs. A. P. Lovejoy, yesterday afternoon. The afternoon being largely dominated by the spirit of the Thanksgiving season. It was not the modern Thanksgiving which the ladies considered but the annual holiday of the old colonial times. Old time customs and old time entertaining were the theme of the brief musical and literary program which followed the usual business session. Mrs. Ogden H. Fethers, the regent, presiding.

The program which the committee had arranged for was especially enjoyable and opened with the reading of an account of the breaking of the ground for the Colonial hall in Washington. This was followed by a piano solo, "Indian Song," artistically rendered by Mrs. James Fifeled, after which Mrs. M. C. Joffe read a splendid paper on "Old Time Entertaining." The program closed with a beautiful solo by Mrs. S. B. Lewis.

After the program delicious refreshments, such as were popular in the early days of American history, were served by the hostess, quaint, old-fashioned dishes being used in the service.

## MISS FAY LEE,

President of the Shakespearean Club, Kansas City.

"Your booklet came to me like a message of health when I had suffered with headache, backache and bearing-down pains. I was weak, nervous and hysterical and had not consulted any doctor, thinking it would pass away in time, but instead I found that the pains increased and were more frequent. I decided to try Wine of Cardui and in a short time was much improved. It seemed to act like a charm. I kept up the treatment and the result was most satisfactory. Words fail to express my gratitude for the suffering that is now saved me. I am in fine health, physically and mentally. I can only say 'thank you', but there is much more in my heart for you."

nervous tension. The nerves soon begin to give way under the strain. You perhaps jump at any unusual disturbance, or laugh or weep, hysterically, at no apparent cause. That is what Miss Fay Lee, 603 1/2 North Seventh Street, Kansas City, Kansas, was coming to when she rescued herself by taking Wine of Cardui. The Wine made her a strong, healthy woman again, as it has made a million other women strong and healthy. By inducing regular menstruation the entire system is relieved of the terrible wasting drains. The ligaments which hold the womb in place are strengthened by a healthy flow and that organ is returned to its normal position. Returning health is the result. This is what Wine of Cardui has done for thousands of the best women in America.

If you need advice write The Ladies' Advisory Department, The Chattanooga Medicine Company, Chattanooga, Tenn., describing all your symptoms freely, and a letter of advice will be sent you. Secure a \$1.00 bottle of Wine of Cardui from your druggist to-day.

## LESSON IN AMERICAN HISTORY IN PUZZLE

ROGER WILLIAMS IN EXILE.  
Find Gov. Haynes, Who Banished Him, and Gov. Winslow, His Friend.

Rogers Williams came to America in 1631, landing in Boston. He settled in Salem where he was chosen minister of the church. His preachings were so radical as to excite the prejudice of the Puritans, and after repeated warnings the courts entered an order of banishment against him. He left the colony and went to the lodge of Chief Massasoit, who presented him with a tract of land on the Seekonk river. In the spring following the banishment of Williams he was joined by five other persons from Salem, who sympathized with him, and during the summer began building the town of Providence. This was in 1636.

## THE NEW GOVERNORS

MEN WHO WERE HONORED BY THEIR FELLOW CITIZENS.

Some of the Elect Who For the First Time Will Preside Over Commonwealths—Chief Executives Chosen in Twenty-nine States.

Twenty-nine states voted for governors at the recent elections, and, while many of those chosen were re-elected, some are men who for the first time have been thus honored by their fellow citizens. Among the new governors perhaps Samuel W. Pennypacker of Pennsylvania, W. J. Bailey of Kansas, S. W. T. Lanham of Texas, George C. Pardee of California, John

GEORGE C. PARDEE.  
(Governor elect of California.)

L. Bates of Massachusetts and J. H. Mickey of Nebraska have attracted the widest public interest because of their personalities and the strenuous campaigns which preceded the depositing of the ballots.

Governor Elect Lanham was perhaps the only one of the sextet who had no doubt of the outcome. He is a native of South Carolina and fought in the Confederate army. He once represented the Eleventh Texas district in congress.

W. J. Bailey, who after Jan. 11 will govern Kansas, is a type of the well-to-do farmer of that state. He is a native of Illinois and went to Kansas twenty-five years ago from the University of Illinois. By dint of hard work and intelligent application he has prospered and is considered one of the richest men in the state.

Miss Mildred Howells, whose engagement to Professor David Fairchild, entomologist of the Smithsonian Institution, has just been announced, is the only daughter of William Dean Howells, the famous novelist.

Miss Howells is the clever daughter of a clever father. Ten or twelve years ago Mr. Howells wrote the introduction and comment for a book of sketches called "A Little Girl Among

Miss Mildred has also written some poems, but of late years has devoted her time and talent to her pencil and brushes.

## SMITH'S GREEN MOUNTAIN RENOVATOR

Mr. PETER HIRSCH, of Benton Harbor, Mich., writes as follows:

"GENTLEMEN:—Your Smith's Green Mountain Renovator, in a few weeks, cleaned out my blood and took up my entire system. It gave me a splendid appetite and I slept at night like a child. The best feature of this medicine was the fact that it did not have any bad effects. When I stepped taking it I did not crave it or feel the future need of depending on it to keep me up. It does every thing that you claim it will do and is certainly a splendid remedy."

Take our advice and consider your own condition? Ask yourself the following questions: Is your blood impure? Are you subject to pimples or facial eruptions? Are you troubled with sores on any part of your body? Do you find that a cut or scratch does not heal readily? Do you fear ulcers?

If you are troubled with any of these symptoms take our word for it, you are in a serious condition. You must have some impurity in your blood. If you have, check it in time by taking Smith's Green Mountain Renovator. More deaths every year can be traced directly to impure blood than to any other one cause. It makes no difference whether you have contracted some blood disease or inherited it, it is there just the same. We know of thousands of cases where this is so. Every day we see sufferers whose blood is so impure that instead of conveying the elements necessary to rebuild the tissues of the body, dreadful poisons are instead infused throughout the entire system. For your own sake; for the sake of your family; for the sake of all who are interested in you do not let such a condition continue.

If you will call on us we will gladly tell you more about Smith's Green Mountain Renovator. We will explain to you why we are so enthusiastic concerning this great remedy and tell you how we have obtained the agency for it in this city, stand prepared at all times to refund to anyone the cost of the medicine who is not satisfied with its use.

## JOSEPH ECHLIN LOSES A TEAM

A Well Dressed Stranger Rented It Monday Noon, and Has Not Yet Returned.

J. W. Echlin, the West Milwaukee street liveryman is anxiously awaiting the return of a pair of horses and a top buggy which he rented out to a stranger Monday noon for a twelve mile drive into the country. The man and team have now been gone two days and Mr. Echlin is afraid that they have been driven to some town and sold by the stranger.

A Tall Man  
The man who hired the team Monday was rather tall and well dressed and looked all right. He went to Echlin's livery about noon on Monday and said that he wished to get a pair of horses and a buggy to make a business trip into the country. He was given the rig and since that time Mr. Echlin has seen nothing of them. He placed the matter in the hands of the police yesterday afternoon and an effort to locate the outfit was made without success. This morning notices containing a description of the missing team were sent to all of the surrounding towns.

Sheriff Maltress received word this morning that a team supposed to be the one belonging to J. W. Echlin, was at a livery stable in Clinton. The description of the team corresponds with the one rented to the stranger by Mr. Echlin, and was left there Monday night by a man answering the description of the party that hired the team.

He drove up to the livery Monday night and asked to have the team taken care of, saying he would be after them in the morning. He did not show up again and the team remained at the barn.

The marshal at Clinton after receiving a telephone message from Sheriff Maltress made inquiry at the livery stables and found the missing outfit. He telephoned the sheriff this morning just after they had mailed a batch of postal cards giving a description of the lost team and buggy.

Mr. Echlin left at 12:45 today for Clinton to identify his property and bring it home. The stranger did not pay for the team in advance so he is out the hire, besides the other expenses attendant in the recovery of the rig.
